

## Glover Case Study

# GloverApp's Collaborative Triumph: A Google Workspace Success Story in Nigeria's Financial Services

Deimos played a pivotal role in the project, handling implementation, deployment, setup, and security. They were responsible for creating customers and groups, ensuring an all-around setup for Workspace.

## THE CHALLENGE

Scaling rapidly, the company faced challenges with communication and needed a robust, flexible, and official solution. Users struggled to join emails seamlessly, resorting to read receipts. If unnoticed, joining groups became a hurdle. Collaboration between staff was a real struggle with their previous tools.

## THE SOLUTION

Deimos implemented Google Workspace. Real-time tools like Gmail and Google Drive overcame inefficiencies, fostering seamless communication and scalable workflows. The cost-effective solution enhanced professionalism, mitigating the challenges and optimising productivity.

### Solution Pillars

- Productivity and collaboration

### Products

## THE RESULT

Glover thrived post-Google Workspace integration. Collaboration became efficient, communication seamless, and scalability smooth. Professionalism soared, overcoming challenges and boosting overall productivity.

## ABOUT GLOVER

Glover is the best platform to buy and sell gift cards in Nigeria at best rates. You can also convert Amazon, steam, and Google Play gift cards to naira.

**Industry:** Financial Services

**Location:** Nigeria

“Google Workspace transformed our collaboration landscape at GloverApp. Real-time tools streamlined communication, and the scalability was a game-changer for us. The professional email setup elevated our image, and cost-effectiveness made it all the more impactful. Thanks to Deimos, productivity skyrocketed, and we've truly optimised our workflow

**Olayemi Omoluwa, ITC Manager,
