

Nu Health's Google Workspace Transformation with Deimos

Deimos played a pivotal role in Nu Health's transformation, taking charge of the seamless implementation, migration, and deployment of Google Workspace. Their expertise addressed challenges like email group issues, downtime, and limitations in collaborative tools, ensuring a comprehensive and effective solution for elevated productivity.

THE CHALLENGE

Nu Health confronted hurdles involving problematic email groups, recurring downtime, and a deficiency in collaborative tools, impeding the efficiency of their technical workflows. Addressing these challenges became pivotal for enhancing operational effectiveness and overall productivity.

THE SOLUTION

Deimos seamlessly transitioned Nu Health from Office 365 to Google Workspace, conquering email group challenges, minimising downtime, and supercharging collaboration with cutting-edge tools.

Solution Pillars

- Productivity and collaboration

Products

THE RESULT

Nu Health achieves peak performance with unparalleled uptime, streamlined collaboration, and optimised storage and email usage. The integration brings real-time file collaboration, precise permissions control, Google Meet for video conferencing, and seamless communication via Google Chat, reshaping and enhancing their workflow for unprecedented efficiency.

ABOUT NU HEALTH

Nu Health, a holistic well-being haven, prioritises personalised wellness through expert guidance and transformative services, fostering a nurturing community.

Industry: Healthcare and Life Sciences

Location: South Africa

“Google Workspace has been a transformative force for Nu Health. The seamless collaboration, real-time file sharing, and efficient communication through Google Meet and Chat have revolutionised our workflow. Our uptime is unparalleled, and the transition orchestrated by Deimos was flawless. Google Workspace, with the expertise of Deimos, is truly a game-changer for optimising our operations and enhancing productivity.”

Nico Uys, MD, Nu Health
