

18 Key Considerations When Choosing Cloud Service and Engineering Support Partners

01

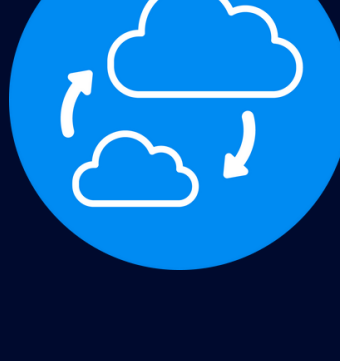

SERVICE OFFERINGS

Assess the service offerings from both the Cloud Service Provider and the Engineering Support partner to ensure that they both align with your unique requirements

SCALABILITY

Ensure that both the Cloud Service Provider and the Engineering Support partner have the ability to scale resources to meet your evolving needs

02

03

COST STRUCTURE

Keeping your software up to date is important for maintaining the security of your devices.

SECURITY AND COMPLIANCE

Prioritise data security and regulatory compliance

04

05

RELIABILITY AND UPTIME

Rely on a provider with a history of consistent service availability

PERFORMANCE AND OPTIMISATION

Choose a partner with expertise in system optimisation

06

07

DATA MANAGEMENT

Safeguard your data with robust backup and recovery solutions

TECHNICAL SUPPORT

Access responsive and efficient technical support

08

09

MIGRATION AND ONBOARDING

Experience smooth migrations and minimal downtime

MONITORING AND OBSERVABILITY

Implement tools to track system performance and diagnose issues

10

11

INNOVATION AND UPDATES

Stay ahead with a commitment to innovation

GEOGRAPHIC REACH

Consider global reach for reduced latency and enhanced disaster recovery

12

13

CUSTOMER FEEDBACK AND REFERENCES

Seek recommendations and references from satisfied clients

EXIT STRATEGY

Plan for transitions with clearly defined exit strategies

14

15

LEGAL AND CONTRACTUAL ASPECTS

Understand terms, conditions, and data ownership

CULTURAL FIT

Collaborate effectively with like-minded partners

16

17

TRAINING AND SKILL TRANSFER

Assess the willingness and track record of both the Cloud Service Provider and the Engineering Support partner relating to their knowledge sharing and training approach

CULTURAL FIT

Collaborate effectively with like-minded partners

18

The decision-making process is now simplified. With these 18 considerations, you can embark on a path toward unparalleled growth and success. Make informed choices, secure your future, and build a partnership for the ages. To learn more on how Deimos can help you with Cloud Services and Engineering Support, click [here](#).
